ABOUT

EARTH AUL

EarthAUL is a division of The Earth India Co., dedicated to delivering reliable, efficient and customised material handling solutions. We combine engineering expertise with industry insights to design, build and support systems that help businesses move forward.

BUILT TO MOVE
WHAT MATTERS

CONVEYOR SYSTEMS & AUTOMATION

Design, supply, installation and support of customised conveyor systems with integrated automation for efficient and seamless material flow.

- Conveyor Design & Manufacturing
- System Integration & Automation
- Material Handling Solutions
- Installation, Testing & Support

ENGINEERING SERVICES

Custom fabrication and engineering support tailored to your operational needs, ensuring strength, precision and long-term reliability.

- Custom Fabrications
- Structural & Mechanical Components
- Modifications & Upgrades
- On-site Support

ASSEMBLY LINE CONVEYOR

FOR A SMOOTHER, MORE PRODUCTIVE FLOW

Our assembly line conveyors are designed to ensure seamless movement of materials and products across your production line. Built for reliability and efficiency, they help you streamline operations and improve productivity.

ROBUST
DESIGN

IMPROVES
PRODUCTIVITY

LOW
MAINTENANCE

CUSTOMISABLE
TO YOUR NEEDS

KEY FEATURES

- ✓ Smooth and consistent material flow
- ✓ Modular and flexible design
- ✓ Suitable for various industries
- ✓ Customised length, width and height
- ✓ Options for belt, roller or chain conveyor
- ✓ Integration with workstations and accessories
- ✓ Durable and low maintenance

APPLICATIONS

CHAIN & SLAT TYPE CONVEYOR

**BUILT FOR HEAVY LOADS.
DESIGNED FOR RELIABILITY.**

Our chain and slat type conveyors are engineered to handle heavy, bulky and high-temperature products with ease. Designed for durability and continuous operation, they provide a reliable solution for demanding industrial applications.

CHAIN CONVEYOR
For heavy and demanding applications.

SLAT TYPE CONVEYOR
For stable and smooth product movement.

HIGH LOAD
CAPACITY

DURABLE &
LONG LASTING

SUITABLE FOR
